

Mystical Life Coaching for Millennials Longing for More

Do you ever wish there was the equivalent of a juice cleanse, green smoothie and yoga retreat ... for your soul?

Something that could help you hit the refresh button. Someone that could guide you on the path less traveled towards heart-led clarity, purpose, and fulfillment.

I'm Annie, your resident sweet tooth, adrenaline-junkie and Mystic Life Coach (learn more about me here). I work with heart-led millennials just like you to expand their energy, reconnect with their soul and manifest their heart's desires.

My tailored mystical life coaching blends three sacred elements:

Intuitive Astrology

Distilling the wisdom of ancient astrology and birth chart readings to reconnect with your soul's purpose and reveal your unique energy, you'll learn about your karmic callings and career pathways as well as your natural skills and energetic talents and how you can learn to embody these fully.

Learn more.

Energetic Healing

Designed to cleanse and clear your energy for enhanced spiritual health and wellness, together we will explore your chakras, investigate which are blocked and then gently heal and renew you on an energetic level. I liken this to clearing unblocking a dam to allow what you desire to flow easily and naturally to you.

Learn more.

Heart-Led Manifesting

Discover what limits and blockages you have in your manifesting practice and learn how, by harnessing advanced quantum physics and the principles of energy, to let the Universe pick up the slack so you can enjoy a life you love!

Learn more.

Tell me, love: What is your soul craving?

I believe that the secret to living a happier life is to let your heart and soul run the show. No limits, no judgment, just full heart-led, soul-guided living.

My mystical life coaching isn't a cookie-cutter experience. It's not about what worked for me, or what will work for someone else; it's about finding what works for you.

Your life, your soul and your dreams are YOURS and yours alone. So why should you follow anyone else's journey?

By working with me you'll:

- Unlock the secrets of your unique birth chart for greater clarity and purpose in your life.
- Heal, cleanse, and nourish your energy to clear a direct channel for receiving your desires.
- Master the manifesting mindset so you can focus on attracting EXACTLY what you want from and in your life.
